Dear Sirs

I recently came into possession of what I consider a great curiosity in your line and would be obliged if you would let me know what you consider the present-value of the article to be. The article referred to is a scrip for fifteen shillings issued by the Colony of New-Jersey dated March 25 - 1776 - it bears the British coat of arms is No 16565 + signed Robt Smith Jno Johnston John Smythe - It is in a first rate state of preservation being as clear and distinct as upon the day of issue - I also have a British farthing of the issue of 1733. very perfect + an American cent of 1829 -

If you will give me an idea of the value of the above I shall be obliged -

Thanking you in anticipation

Yours truly
W. A. Bellhouse
